Special Virtual Science Fair for Canadian Students

Grants and Prizes Up For Grab At 2022 Abdus Salam Science Fair

Abdus Salam Science Fair invites Canadian students to participate in this year's Science Fair. It's a 14 year old tradition in Canada encouraging young Canadian future scientists to showcase their creativity. Due to the pandemic situation, the science fair will be held virtually and is open to all students between grade 5 to grade 12 from throughout Canada.

This prestigious science fair has attracted hundreds of brilliant and curious minded students each year. Interested students who wish to participate must submit a short video of their science project no later than **Feb 22, 2022**. All submitted project videos will be judged by a panel of judges for each age category. The top three position holders from each category will be included in a awards ceremony that would be streamed live on **March 6, 2021**. Cash prizes will be awarded for all the winning projects.

"..The students participating in this science fair are not just the leaders of tomorrow, they are also the leaders of today, and their ideas and brilliance will greatly benefit our country..." said Prime Minister Justin Trudeau in his message to the participants of the science fair.

Whereas the science fair is organized by the Ahmadiyya Muslim Community but is secular in nature and open to 'all' Canadian students. For more information, qualifications and requirements please visit www.AbdusSalamScienceFair.com

Media Opportunity:

Interviews with award winning students and their projects. Coverage of the science fair and the virtual awards ceremony.
